INTRODUCTION

Pattern drawing has gained a lot of popularity in recent years, in large part because of the advent of Zentangle®, and many people have been creating and sharing patterns and tangles (Zentangle patterns) online.

In December 2010, I started compiling a weekly list of links to interesting articles, new tangles and patterns, and publishing it on my blog as the *Weekly Roundup*.

In this ebook, I have compiled all the pattern links from the beginning of the Roundup in 2010, up to the end of 2016. The book doesn't contain the tangles themselves, just web links to them. All the names are clickable and should take you to the web page where the pattern was published. I have also added patterns that I had collected before I started the roundup. In this edition, there are over **4,000 links** to pattern step-outs, including over 800 new ones since the last edition.

The patterns are listed in alphabetical order by tangle name. Tangles that come from **Zentangle** are in **bold text**. If you're looking for patterns from a particular person, you can use the search function in your PDF reader to find them. All the patterns listed here are freely available on the Internet.

ACKNOWLEDGEMENT

I want to thank all the people out there who create patterns and make them available for all of us to collect and use in our artwork.

TERMINOLOGY

There are several methods of drawing with structured patterns, and Zentangle is one of them. In Zentangle, patterns are called *tangles*. Tangles are always abstract patterns.

In this collection of patterns, some can be considered tangles, some not, but the difference is not clearcut, so I have refrained from labelling the patterns.

VIDEOS

In past editions of this book, I included links to videos by various people, showing how to draw the patterns. Because there are now too many of them for me to keep track, I will no longer include links to individual videos. But if you are interested in videos, here are some YouTube channels to get you started.

FEEDBACK

I try to make improvements in every version, and I welcome your suggestions; email me at gcrabe@mac.com.

The Internet is ever changing. Even though I checked all the links just before publication, you may encounter some links that don't work anymore. If you do, please let me know so I can either remove the link in the next version, or try to find whether the pattern has been moved.

MY OTHER PRODUCTS

- **Geneviève's Mandala Stencils:** a mandala design kit containing several circular grids.
- **Tote bags and more** in my RedBubble store, including items that you can colour or tangle.
- **Tangle organizers**
- **Colouring books**
- **[Click here for a web page with links to all my products](#)**
