## ***INTRODUCTION***

Pattern drawing has gained a lot of popularity in recent years, in large part because of the advent of Zentangle®, and many people have been creating and sharing patterns and tangles (Zentangle patterns) online. In December 2010, I started compiling a weekly list of links to interesting articles, new tangles and patterns, and publishing it on my blog as the *Weekly Roundup*.

In this eBook, I have compiled over **6,200** pattern and video links from the beginning of the Roundup in 2010, up to the last Weekly Roundup in November 2017. The book doesn't contain the tangles themselves, just web links to them. All the names are clickable and should take you to the web page where the pattern or video was published.

The patterns are listed in alphabetical order by tangle name. Tangles that come from **Zentangle** are in **bold text**. All the patterns listed here are freely available on the Internet.

In addition, I have included around **350 links** to a variety of web pages with tutorials or just interesting information. These are culled from all the Weekly Roundups.

## ***SEARCHING***

In whatever app you are using to read this document, you can use the search function if you are looking for a particular pattern, or a particular pattern designer, a particular tutorial topic, etc.

## ***ACKNOWLEDGEMENT***

I want to thank all the people out there who create patterns, videos, and tutorials, and make them available for all of us to collect and use in our artwork.
